D F C[™]

Distinguished Flying Collectibles™

Dear Retailer,

I Would like to take this opportunity to introduce you to **Reaper Miniatures** and **Renaissance Dreams Jewelry**. Many of you will recognize some or most of the miniatures in our catalog. We recently purchased the rights, title and license to these figures and more. We will be releasing additional old favorites and many new exciting figures very soon.

Reaper Miniatures selection, packaging and method of distribution is designed to bring the highest quality figure to the consumer for the least amount of dollars, which should represent a fast turn in sales stimulus for your store. Our figures are cast in a lead/tin/antimony alloy, packaged in a four mil. bag with an attractive card stock header and sold directly to the retailer. All of this is in an effort to keep our cost and **your prices** at a minimum.

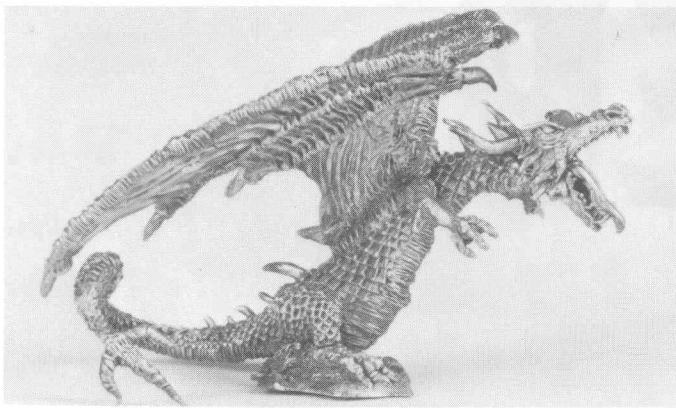

For those stores that desire or are operating under Health Department restraints, all of are figures are available in pewter at an additional fifty percent to the retail price. Our standard twenty five millimeter character figure is \$.90 in our normal metal mixture. This same figure in pewter will be \$ 1.35 which is still well below what most of our competition offers.

If you have any questions or I can be of assistance in helping you place an order please call or write.

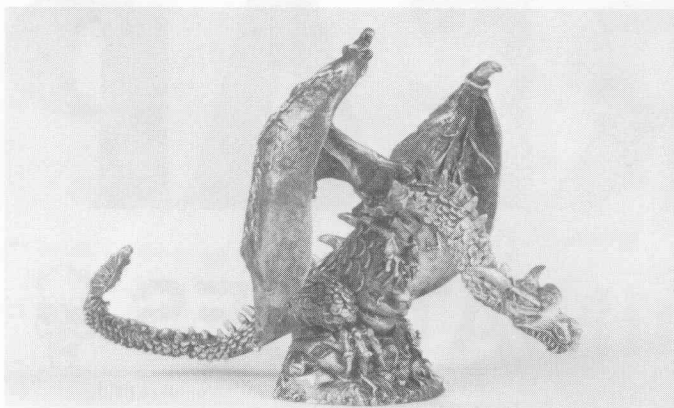

Thank you,

Al Pare
